

2023-24 Quality Dollar Table

To better address funding needs for early childhood providers and Preschool sites, the 2023-24 school year Quality Dollars for private ODJFS-licensed child care sites and private ODE-licensed sites will be based on base funding plus per-child stipends. In lieu of Quality Dollars at public school partners and Miami Valley Child Development Centers (MVCDC), contracts may be executed for expansion of preschool seats and special projects.

This table summarizes the maximum funding available to participating Preschool Promise sites. Funds must be used for approved purposes such as: increasing teacher wages, purchasing curriculum for Preschool classrooms, paying for training for Preschool teachers, purchasing needed equipment for classrooms, offering expanded services to children in the program. Requests must be submitted to Preschool Promise for approval.

CENTER BASED & TYPE A

If an owner/organization has multiple sites participating in Preschool Promise the maximum Annual Base Funding rate will be \$30,000.
