

Earn up to \$4,000 by participating in a social-emotional learning research study with  
**Preschool Promise!**

### What is the research study?

Preschool Promise is partnering with the US Department of Education and our research partners to conduct a social-emotional learning (SEL) impact study on up to 130 classrooms, over the 2025-26 and 2026-27 academic years. The study will examine the application and impact of Conscious Discipline (CD) in preschool classrooms at Preschool Promise sites. There are two groups of participants:

- **Group A:** Receives CD training and materials, applies CD in the classroom, and teacher and students' progress is tracked throughout the duration of the program.
- **Group B:** Applies their existing curriculum and approach in the classroom and teacher and students' progress is tracked throughout the duration of the program.
